Introduction

Odoo Clever All in One Report Templates is a perfect solution for you as it helps you to customize store reports based on your business requirements. With the help of Odoo All in One Report Templates app, you can effortlessly manage report creation in Odoo. Feel free to customize all the fields of your reports right from your company name to customer address!

Benefits of Clever All In One Report Templates

- It is an excellent app to manage multiple reports of Odoo store creatively. This app will help you maintain reports in a superior way. Admin can set layout of the reports in multiple ways.
- There are inbuilt 6 types of report configurations for the references. Admin can customize them the way they want.
- Admin can view Payment History in the invoice to keep a track of order details.
- Admin can set Text Colors, Company Details Colors and Product Description also in the Invoice. Admin can choose diverse colors with Color Picker.
- Admin will be able to manage templates of Invoices, Sales Orders, Purchase Orders and Request for Quotation, Delivery Notes and Item Pick up Notes.

Pre-requisites

Following points must be followed before starting the Plugin installation:

- You should login as an Admin in Odoo.
- Check that your Odoo Instance is compatible for Clever All In One Report Templates.
- For Report layout, header and footer are preferable in this wkhtmltopdf 0.12.1 (with patched qt) or wkhtmltopdf 0.12.5 (with patched qt) version.
- You need to install img2pdf, num2words and fpdf.

Installation

Installation Steps

Step 1: Download and extract the zip file.

Step 2: Check your Odoo add-ons path.

- It should be the same as defined in Odoo Config file.
- Config files are mostly saved in /etc folder. For e.g. /etc/odoo.conf
- Open Config file:
 - Give the command: `sudo/etc/odoo.conf`
 - Config file content: `addons_path = /opt/odoo/addons`

Step 3: Open Terminal and go to the download location

- For e.g. if the download location path is: /home/odoo/Downloads then the command to be written in the terminal would be: `cd/home/odoo/Downloads`

Step 4: Copy download modules to addons path

- Give the below mentioned commands to perform copy operation:
 - `$cd /home/odoo/Downloads/general_template`
 - `$cd v16`
 - `$sudocp general_template/opt/odoo/addons`

Step 5: Restart Odoo server.

Step 6: Login with the admin credentials in your Odoo instance.

Step 7: Go to the Apps/Update Apps List.

- Click on 'Update' button.

Step 8: Go to Apps

- Remove 'Apps' search filter.

- Enter the module name in the search box provided in the top right corner of the page. For e.g. here write "Clever All In One Report Templates".
- Click on 'Install' button.

USER MANUAL – Clever All in One Report Templates

App Configuration

Configuring 'Default Report Templates'

- You can set the Report Templates for the Companies.
- Go to **Settings -> User & Companies** (on header) -> **Companies**

- Select your company and click on the **'Default Report Settings'** tab.

- Now click on **'Edit' button** to edit the template and Report.

Set 'Default Template Settings'

The screenshot shows the 'Default Template Settings' page in the Appjetty system. The page has a purple header with navigation links: Settings, General Settings, Users & Companies, Translations, and Technical. The user is logged in as 'Mitchell Admin (v16_general_template)' for 'My Company (San Francisco)'. The page title is 'Companies / My Company (San Francisco)'. The main content area is divided into two sections: 'DEFAULT TEMPLATE SETTINGS' and 'DEFAULT REPORT SETTINGS'. The 'DEFAULT TEMPLATE SETTINGS' section is highlighted with a red box and contains a table of report templates and their default settings. The 'DEFAULT REPORT SETTINGS' section contains settings for the report logo, watermark, and standard template configuration.

Display Signature ? ☒	Signature ? 

Set Default Report Template for Customers

- You can also set the Default Report Templates for the Customers.
- For that, go to **Menu icon**  -> **Sales -> Orders -> Customers**.

- Click on the **Customers**.
- Select the customer and then click on **'Edit'** to set the default template for the selected customer.

- Click on the **'Report Configuration'** tab and choose the templates for the following reports:
 - Invoice
 - Purchase Order
 - Sales Order
 - RFQ Template
 - Delivery Note
 - Picking List
- Select the **'Default Template'** as per your requirement and save the changes.

Configure Language for Report

- Click on **Menu icon**  -> **Sales -> Customers**.
- Now select the customer for which you want to set specific **language** and click on **'Edit'** to set the required language from 'Language' dropdown list.

The screenshot shows the 'Customers / Azure Interior' page. The top navigation bar includes 'Sales', 'Orders', 'To Invoice', 'Products', 'Reporting', and 'Configuration'. The user is logged in as 'Mitchell Admin (v16_general_template)'. The page displays customer information for 'Azure Interior', including address, phone, email, and website. A red box highlights the 'Language' dropdown menu, which is open and shows options: English (US), French / Français, German / Deutsch, and Spanish (MX) / Español (MX). The 'English (US)' option is selected.

- By using this Language selection, you can display the amount in words in the language which is selected here.

Note: You can set the language from the **Menu icon**  -> **Settings -> Manage Languages**.

The screenshot shows the 'Settings' page. The left sidebar has 'General Settings' selected. The main content area shows the 'Users' section with an 'INVITE' button and a 'Pending Invitations' list. Below this, the 'Languages' section shows '4 Languages' and a red box highlights the 'Manage Languages' link.

- Click on the **Manage Languages** to choose the language and load the chosen language. Save the changes.

Printing the Reports

Printing option for the Sales Orders

- Go to **Menu**  icon **Sales -> Sales Orders**.
- Select any Sales Order from the list of Sales Orders that is to be printed.
- Click on **Print -> Quotation / Order** to print the Sales Order.

The screenshot shows the Appjetty Sales Order interface for order S00024. The top navigation bar includes 'Sales', 'Orders', 'To Invoice', 'Products', 'Reporting', and 'Configuration'. The user is logged in as 'Mitchell Admin (v16_general_template)' for 'My Company (San Francisco)'. The order details section shows the customer 'Gemini Furniture' and the order date '03/01/2023 14:24:27'. The 'Print' and 'Action' buttons are highlighted in a red box. Below the order details, there is a table with columns: Product, Description, Quantity, Delivered, Invoiced, Unit Price, Taxes, and Subtotal. The table contains one row for '[E-COM06] Corner Desk Right Sit' with a quantity of 10.00 and a subtotal of 1,990.00 €.

Product	Description	Quantity	Delivered	Invoiced	Unit Price	Taxes	Subtotal
[E-COM06] Corner Desk Right Sit	[E-COM06] Corner Desk Right Sit	10.00	0.00	0.00	199.00		1,990.00 €

- By clicking on **Quotation / Order**, you can print out or download the PDF of the Sales Order.

Printing Sales Orders - PDF

- By clicking on the Print icon, you can print the PDF of Sales Order.
